

Cashback Rewards Rules

(Update January 4, 2024)

At WeSave, we want your next purchase to be just as rewarding and easy as your first. We created the WeSave Cashback Rewards Program to honor our repeat customers. It is your ticket to great savings.

Earning WeSave Cashback Rewards is easy. When you place an order on our WeSave eCommerce platform or at one of our participating local retail brick 'n' mortar Merchants, you can earn WeSave Cashback Rewards (your "Cashback Rewards") on all qualifying purchases. Here is a summary for the WeSave Cashback Rewards Program:

1. You need a current WeSave user account ("Member Account") in good standing to earn and use WeSave Cashback Rewards.
2. WeSave Cashback Rewards are automatically earned on all Qualified Purchase Transactions you place through www.wesave.com and at participating local retail brick 'n' mortar Merchants.
3. A Qualified Purchase Transaction is one that is made at a WeSave Merchant who pays us a Coalition Marketing Fee that runs through the Company's Revenue Distribution Engine ("RDE") and that is tracked to your Member Account and reported on your Member Dashboard. You can log in to your Member Account at any time and see your purchases and the associated Cashback Rewards balance.
4. Cashback Rewards equal up to 2% of the purchase price of the product or service, not including shipping, taxes, or third-party finance charges. Not all purchases qualify for a Cashback Reward such as gift certificates, travel deals and memberships.
5. When you reach a \$25 threshold in your Cashback Rewards, you will be able to transfer them via ACH to your debit card/designated account or to a digital wallet or gift card (as applicable, when available) for use outside of our Network.
6. Earned WeSave Cashback Rewards normally require a short holding period for settlement before they can be redeemed.
7. WeSave is not responsible for the misuse, loss, or misapplication of your WeSave Cashback Rewards once they are issued to your Member Account. However, if you suspect fraudulent activity on your account, please notify us immediately at help@wesave.com.
8. WeSave Cashback Rewards do not expire for active Members. However, keep in mind that if your account is terminated by us or is cancelled by you, we will clear any balance of Cashback Rewards in your Member Account and send them to your debit/designated account on file with us in accordance with State escheatment laws.
9. If your Member Account remains inactive for a period of 12 months, then all unredeemed WeSave Cashback Rewards in such account shall be deemed forfeit and void without penalty, liability, or recourse to WeSave provided that such funds are not subject to state escheatment laws.
10. These WeSave Cashback Rewards Rules are subject to change at any time without notice.
11. If you believe you earned Cashback Rewards that were not posted to your Member Account properly, then you must notify us at help@wesave.com within thirty (30) days after the date you made the qualified purchase in question so we can investigate your claim, or we will have no further obligation to apply any Cashback Rewards to your Account. We will work with you on a best-efforts basis to resolve any discrepancies.
12. When redeeming WeSave Cashback Rewards, you agree to confirm that your personal profile information is up to date and accurate (including shipping and email addresses).
13. WeSave Cashback Rewards accrued in your Member Dashboard are not transferable upon your death or as part of a domestic relations settlement matter, or otherwise unless otherwise determined by applicable law.
14. BONUS: Finally, at least for the first year, the company will also issue to the first 100,000 Premier Members who earn \$150 from their 2% Cashback Rewards, an additional share of Preferred Stock with its rights to future dividends.

Coming Soon - When you shop online at WeSave.com, you will be able to apply your earned Cashback Rewards to "buy down" the purchase price of the item you are buying. In this event, you will only earn additional Cashback Rewards on the final price you pay. For example, if you buy something for \$100 and apply \$25 of the Cashback Rewards you earned from previous purchases, then you will only be credited with Cashback Rewards for your remaining actual payment of \$75. To be clear, there will be no Cashback Rewards paid on any portion of the transaction paid via previously earned Cashback Rewards.
